

Kinder Morgan Canada has created an environment where original thinking and the broad application of experience are encouraged. We seek candidates who wish to expand their horizons, who will thrive in our open style management, while sharing our commitment to pipeline safety, environmental responsibility and organizational excellence. We are poised for a future dominated by expansion, activity and excitement.

Are you an individual that has been looking for an opportunity where you will be able to take the lead? Where the opportunity exists to expand your career? If you have a combination of pipeline industry experience, technical expertise, successful delivery of projects and excellent communications skills, you are definitely someone we want to talk to.

The Emergency Management Planner is a key position to support the Emergency Management Program. The Emergency Management Planner's main responsibility is to assist in the development and implementation of the Emergency Management Program related to KMC assets and will be responsible for producing and maintaining management system documents for these programs.

Responsibilities include, but are not limited to:

- Implementation and coordination of the EMP exercises, training sessions and Community Awareness and Emergency Response (CAER) presentations including administering presentations and designing new presentations.
- Interpret and provide feedback on EMP events and trainings to ensure continual improvement in the EMP including post incident investigations reviewing the implementation of the Emergency Response Plans.
- Assist with the development, implementation and maintenance of the integrated safety and loss management system.
- Ability to review and write technical documents and summarize for other departments and/or Management.
- Assist in budget development and management
- Contribute to the organization by providing routine technical problem resolution
- Attend internal and external Emergency Management meetings when requested.
- Respond to emergencies and be able to fill various incident command system positions

Position Requirements:

- Bachelor degree in a related field, such as Emergency Management, Engineering Sciences, Safety, Humanities, Social Sciences
- Minimum of 6 years emergency management experience preferably in the petroleum industry with increasing responsibilities and project complexity.
- Confidence and ability to communicate effectively to all levels of the organization, external customers, and suppliers.
- Ability to write clearly and concisely for different types of audiences and deliver presentations.

- Flexible and able to work effectively within a team and maintain a professional and respectful manner with co-workers and external parties.
- Ability to successfully perform multiple tasks in high pressure and time restricted situations.
- Ability to review technical documents and summarize for other departments and/or Sr. Management.
- Valid Drivers License

As an equal opportunity employer, Kinder Morgan Canada actively encourages applications from traditionally underrepresented groups, including women, Aboriginal Peoples, members of visible minorities and persons with disabilities.
