BLOOD TRIBE ADMINISTRATION JOB POSTING

POSITION TITLE: Environmental Researcher
DEPARTMENT: Land Management - Environmental Protection Division
STATUS: Term (5 Months)
POSTING OPEN DATE: October 22, 2018 **POSTING CLOSE DATE:** November 5, 2018

FUNCTIONAL DESCRIPTION:

The Environmental Researcher will assist the Land Management Department with the completion of the Climate Change Health and Adaptation Program project activities on the Blood Reserve. The objective of the Environmental Researcher is to incorporate both science and Traditional Ecological Knowledge into the research program for effective outcomes for community health and climate change adaptation. Main responsibilities include gathering knowledge and implementing program activities. The incumbent will work with Blood Tribe elders, community members and Departments and Entities as well as provincial and federal government and non-government agencies.

NECESSARY TRAINING AND RELATED WORK EXPERIENCE:

- The ideal candidate must have a diploma and a two-year post-secondary diploma in Environmental Science or related field with a minimum of two to three years work experience; or completed course work towards an Environmental Science degree with a minimum of two to three years work experience.
- Must have a valid drivers license and a reliable mode of transportation.

If you are interested in this opportunity, please submit a cover letter, resume, and copies of your credentials to:
